- Favicon Versions

Each format includes:

- Primary Version
- Dark Background Version

- Accent Background Version

Icon Sets

The package includes application and favicon icon sets in the following sizes:

- 16 × 16 px
- 32 × 32 px

Available variations:

- Primary Icon
- Dark Background Icon
- Accent Background Icon

Brand Guidelines

The complete brand guideline document is included, covering:

- Logo Usage
- Color Palette
- Typography System
- Visual Identity Direction
- Brand Consistency Rules
- Mockups

Source & Presentation Files

All finalized exports, presentation assets, and approved deliverables are included within their respective folders for organized access and future scalability.

Recommended Usage

- Use SVG files for scalable and high-resolution applications.
- Use PNG files for quick digital implementation.
- Use favicon assets for browsers and web applications.

- Maintain logo proportions, spacing, and color usage according to the brand guidelines for consistent brand representation.

Feedback

Please share your feedback via this form, this means a lot to us ❤️
